

SAFETY DATA SHEET

Fiddes Crackle Lacquer

According to Regulation (EC) No 1907/2006, Annex II, as amended.Commission Regulation (EU) No 2015/830 of 28 May 2015.

| SECTION 1: Identification of the substance/mixture and of the company/undertaking | |
|---|---|
| 1.1. Product identifier | |
| Product name | Fiddes Crackle Lacquer |
| 1.2. Relevant identified uses of | f the substance or mixture and uses advised against |
| Uses advised against | No specific uses advised against are identified. |
| 1.3. Details of the supplier of the | ne safety data sheet |
| Supplier | Fiddes and son Florence works, Brindley road, Cardiff. CF11 8TX +44 (0) 2920 340323 +44 (0) 2920 343235 info@fiddes.co.uk |
| Manufacturer | Fiddes and son Florence works, Brindley road, Cardiff. CF11 8TX +44 (0) 2920 340323 +44 (0) 2920 343235 info@fiddes.co.uk |
| 1.4. Emergency telephone nun | nber |
| Emergency telephone | Infotrac 1-352-323-3500 |
| National emergency telephone number | 02920 340323 |
| SECTION 2: Hazards identifica | ation |
| 2.1. Classification of the substa | ance or mixture |
| Classification (EC 1272/2008) | |
| Physical hazards | Not Classified |
| Health hazards | Not Classified |
| Environmental hazards | Not Classified |
| 2.2. Label elements | |
| Hazard statements | NC Not Classified |
| Precautionary statements | P102 Keep out of reach of children. P101 If medical advice is needed, have product container or label at hand. |

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

| Organic Pigment CAS number: — | 10-30% |
|----------------------------------|--------|
| Classification Not Classified | |

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

| SECTION 4: First aid measures | |
|---|---|
| 4.1. Description of first aid r | neasures |
| General information | Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel. |
| Inhalation | Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention. Place unconscious person on their side in the recovery position and ensure breathing can take place. |
| Ingestion | Rinse mouth thoroughly with water. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Never give anything by mouth to an unconscious person. Place unconscious person on their side in the recovery position and ensure breathing can take place. Keep affected person under observation. Get medical attention if symptoms are severe or persist. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention immediately. |
| Skin contact | Rinse with water. |
| Eye contact | Remove any contact lenses and open eyelids wide apart. Rinse with water. Get medical attention if any discomfort continues. |
| Protection of first aiders | First aid personnel should wear appropriate protective equipment during any rescue. |
| 4.2. Most important sympto | ms and effects, both acute and delayed |
| General information | The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| Inhalation | A single exposure may cause the following adverse effects: Irritation of nose, throat and airway. Difficulty in breathing. Coughing. |
| Ingestion | Aspiration hazard if swallowed. Entry into the lungs following ingestion or vomiting may cause chemical pneumonitis. |
| Skin contact | No specific symptoms known. |
| Eye contact | No specific symptoms known. May be slightly irritating to eyes. |
| 4.3. Indication of any immediate medical attention and special treatment needed | |
| Notes for the doctor | Treat symptomatically. |
| SECTION 5: Firefighting me | easures |
| | |

5.1. Extinguishing media

Suitable extinguishing media The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.

| the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.Special protective equipment for firefightersWear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.SECTION 6: Accidental release measuresmeasures6.1. Personal precautions, protective equipment and emergency proceduresMear positive-prestive equipment and emergency proceduresPersonal precautionsWear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material. Avoid inhalation of vapours and spray/mists. Use suitable respiratory protection if ventilation is inadequate.6.2. Environmental precautionsAvoid discharge into drains or watercourses or onto the ground.6.3. Methods and material for immediately and dispose of waste safely. Small Spillages: Collect spillage. Large Spillages: Absorb spillage with non-combustible, absorbent material. The contaminated absorbent may pose the same hazard as the spilled material. Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated | | |
|---|-----------------------------------|--|
| Specific hazards Containers can burst violently or explode when heated, due to excessive pressure build-up. Hazardous combustion products Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. 5.3. Advice for firefighters Avoid breathing fire gases or vapours. Evacuate area. Keep upwind to avoid inhalation of gases, vapours, fumes and smoke. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or split has not ignited, use water spray to disperse vapours and protect me stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water polition occurs, notify appropriate authorities. Special protective equipment for firefighters Wear positive-pressure self-contained breathing aparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard ENV49 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Personal precautions Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into splited material. Avoid inhalation of vapours and spray/mists. Use suitable respiratory protection if ventilation is inadequate. 6.2. Environmental precautions Avoid d | | Do not use water jet as an extinguisher, as this will spread the fire. |
| Hazardous combustion products Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. 5.3. Advice for finefighters Avoid breathing fire gases or vapours. Evacuate area. Keep upwind to avoid inhalation of gases, vapours, times and smoke. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray to disporte entering them. Cool containers exposed to heat with water spray to disport to avoid inhalation of risk of water pollution occurs, notify appropriate authorities. Special protective equipment Wear positive-pressure self-contained breathing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities. Special protective equipment Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents. SECTION 6: Accidental release measures 6.1. Personal precautions Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material. Avoid inhalation of vapours and spray/mists. Use suitable respiratory protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Small Spillages: Collect spillage. Large Spillages: Absorbent may pose the same hazard as the spilled material. Once contaninated absorbent may pose the same hazard as the spilled material. Cloclet spillage. Large Spillages: Absorbent material. The contaminate | 5.2. Special hazards arising from | om the substance or mixture |
| products Harmful gases or vapours. 5.3. Advice for finefighters Fotoective actions during firefighting Avoid breathing fire gases or vapours. Evacuate area. Keep upwind to avoid inhalation of gases, vapours, times and smoke. Ventilate closed spaces before entering them. Cool containers exposed to hear with water spray to disperse vapours and protect me stopping to ut of sewers and vater courses of fames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapours and protect me stopping the leak. Corollor un-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities. Special protective equipment Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Personal precautions Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material. Avoid inhalation of vapours and spray/mists. Use suitable respiratory protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Small Spillages: Collect spillage. Large Spillages: Absorb spillage with non-combustible, absorbert material. The contaminated absorbert may prose the seme hazard as the spilled material. Colect anpliage. Large Spillages: Absorb spill | Specific hazards | Containers can burst violently or explode when heated, due to excessive pressure build-up. |
| Protective actions during Avoid breathing fire gases or vapours. Evacuate area. Keep upwind to avoid inhalation of gases, vapours, fumes and smoke. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to fames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapours and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities. Special protective equipment Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures Personal precautions Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material. Avoid inhalation of vapours and spray/mists. Use suitable respiratory protection if ventilation is inadequate. 6.2. Environmental precautions Avoid discharge into drains or watercourses or onto the ground. 6.3. Methods and material for containment and cleaning up Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Small Spillagees: Clotect spillage. Large Spillagees: Absorb spi | | |
| firefighting gases, vapours, fumes and smoke. Ventilate closed spaces before entering them. | | SECTION 7. Handling and sto | |
| | 7.1. Precautions for safe hand | ling |

| Usage precautions | Read and follow manufacturer's recommendations. Wear protective clothing as described in |
|-------------------|--|
| | Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. |
| | Handle all packages and containers carefully to minimise spills. Keep container tightly sealed |
| | when not in use. Avoid the formation of mists. Do not handle until all safety precautions have |
| | been read and understood. Do not handle broken packages without protective equipment. Do |
| | not reuse empty containers. |

| Advice on general occupational hygiene | Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse. |
|--|---|
| 7.2. Conditions for safe store | age, including any incompatibilities |
| Storage precautions | Store away from incompatible materials (see Section 10). Store locked up. Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage. |
| Storage class | Chemical storage. |
| 7.3. Specific end use(s) | |
| Specific end use(s) | The identified uses for this product are detailed in Section 1.2. |
| SECTION 8: Exposure Cont | rols/personal protection |
| 8.1. Control parameters | |
| Occupational exposure limit | <u>5</u> |
| Long-term exposure limit (8- Long-term exposure limit (8- WEL = Workplace Exposure | hour TWA): WEL 10 mg/m ³ inhalable dust |
| | Organic Pigment |
| DNEL | Workers - Inhalation; Long term local effects: 10 mg/m ³ |
| 8.2. Exposure controls | |
| Protective equipment | |
| | |
| Appropriate engineering controls | Provide adequate general and local exhaust ventilation. Ensure the ventilation system is regularly maintained and tested. Good general ventilation should be adequate to control worker exposure to airborne contaminants. Observe any occupational exposure limits for the product or ingredients. |
| Eye/face protection | Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses. |
| Hand protection | No specific hand protection recommended. |
| Other skin and body protection | Wear appropriate clothing to prevent repeated or prolonged skin contact. |
| Hygiene measures | Wash after use and before eating, smoking and using the toilet. Do not eat, drink or smoke when using this product. |
| Respiratory protection | Ensure all respiratory protective equipment is suitable for its intended use and is 'CE'-marked |

Respiratory protection Ensure all respiratory protective equipment is suitable for its intended use and is 'CE'-marked. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges should comply with European Standard EN14387. Full face mask respirators with replaceable filter cartridges should comply with European Standard EN136. Half mask and quarter mask respirators with replaceable filter cartridges should comply with European Standard EN136. Half mask and quarter mask respirators with replaceable filter cartridges should comply with European Standard EN140.

Environmental exposure Keep container tightly sealed when not in use. controls

| SECTION 9: Physical and Chemical Properties | | |
|---|--|--|
| 9.1. Information on basic phys | sical and chemical properties | |
| Appearance | Liquid. | |
| Colour | Amber. | |
| Odour | Mild. | |
| Odour threshold | No information available. | |
| рН | No information available. | |
| Melting point | No information available. | |
| Flash point | Not applicable. | |
| Upper/lower flammability or explosive limits | Scientifically unjustified. | |
| Auto-ignition temperature | Scientifically unjustified. | |
| 9.2. Other information | | |
| SECTION 10: Stability and rea | activity | |
| 10.1. Reactivity | | |
| Reactivity | See the other subsections of this section for further details. | |
| 10.2. Chemical stability | | |
| Stability | Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. | |
| 10.3. Possibility of hazardous | reactions | |
| Possibility of hazardous reactions | No potentially hazardous reactions known. | |
| 10.4. Conditions to avoid | | |
| Conditions to avoid | There are no known conditions that are likely to result in a hazardous situation. | |
| 10.5. Incompatible materials | | |
| Materials to avoid | No specific material or group of materials is likely to react with the product to produce a hazardous situation. | |
| 10.6. Hazardous decompositio | on products | |
| Hazardous decomposition products | Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. | |
| SECTION 11: Toxicological information | | |
| 11.1. Information on toxicological effects | | |
| <u>Acute toxicity - oral</u> Notes (oral LD₅₀) | Based on available data the classification criteria are not met. | |
| Acute toxicity - dermal Notes (dermal LD₅₀) | Based on available data the classification criteria are not met. | |
| Acute toxicity - inhalation Notes (inhalation LC_{50}) | Based on available data the classification criteria are not met. | |
| Skin corrosion/irritation | | |

| Animal data | Based on available data the classification criteria are not met. |
|--|---|
| Serious eye damage/irritation Serious eye damage/irritation | Based on available data the classification criteria are not met. |
| Respiratory sensitisation Respiratory sensitisation | Based on available data the classification criteria are not met. |
| Skin sensitisation Skin sensitisation | Based on available data the classification criteria are not met. |
| Germ cell mutagenicity Genotoxicity - in vitro | Based on available data the classification criteria are not met. |
| Carcinogenicity Carcinogenicity | Based on available data the classification criteria are not met. |
| IARC carcinogenicity | None of the ingredients are listed or exempt. |
| Reproductive toxicity Reproductive toxicity - fertility | Based on available data the classification criteria are not met. |
| Reproductive toxicity - development | Based on available data the classification criteria are not met. |
| Specific target organ toxicity - | single exposure |
| STOT - single exposure | STOT SE 3 - H335 May cause respiratory irritation. |
| Target organs | Respiratory system, lungs |
| Specific target organ toxicity - STOT - repeated exposure | repeated exposure Not classified as a specific target organ toxicant after repeated exposure. |
| Aspiration hazard Aspiration hazard | Asp. Tox. 1 - H304 May be fatal if swallowed and enters airways. Pneumonia may be the result if vomited material containing solvents reaches the lungs. |
| General information | The severity of the symptoms described will vary dependent on the concentration and the length of exposure. |
| Inhalation | A single exposure may cause the following adverse effects: Irritation of nose, throat and airway. Difficulty in breathing. Coughing. |
| Ingestion | Aspiration hazard if swallowed. Entry into the lungs following ingestion or vomiting may cause chemical pneumonitis. |
| Skin contact | No specific symptoms known. |
| Eye contact | No specific symptoms known. |
| | Increation Inholation Olvin and/or ave contact |
| Route of entry | Ingestion Inhalation Skin and/or eye contact |
| Route of entry Target organs | Respiratory system, lungs |

Ecotoxicity

Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.

12.1. Toxicity

| Toxicity | Based on available data the classification criteria are not met. |
|--------------------------------|--|
| 12.2. Persistence and degrada | bility |
| Persistence and degradability | The degradability of the product is not known. |
| 12.3. Bioaccumulative potentia | <u>I</u> |
| Bioaccumulative potential | No data available on bioaccumulation. |
| 12.4. Mobility in soil | |
| Mobility | No data available. |
| 12.5. Results of PBT and vPvE | 3 assessment |
| 12.6. Other adverse effects | |
| Other adverse effects | None known. |
| SECTION 13: Disposal consid | erations |
| 13.1. Waste treatment method | <u>S</u> |
| General information | The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous. |
| Disposal methods | Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Incineration or landfill should only be considered when recycling is not feasible. |
| | |

SECTION 14: Transport information

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

| National regulations | Health and Safety at Work etc. Act 1974 (as amended). |
|----------------------|---|
| - | The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment |
| | Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"]. |
| | EH40/2005 Workplace exposure limits. |
